(72)Inventor : KIDERA KINICHI

(54) TRANSACTION PROCESSOR

(57) Abstract:

PROBLEM TO BE SOLVED: To facilitate post-processing and to enable the next transaction as it is by ejecting a slip after printing is executed for the prescribed amount of registered data when power failure occurs during the acceptance of slip.

SOLUTION: When a bankbook is inserted into a bankbook slot, this is taken in, bankbook data magnetically recorded on magnetic stripes on the cover of bankbook are read by a bankbook processing part 37, further, data showing lines to be printed are read out of these bankbook data, and these bankbook data are stored in the prescribed area of storage part 31. Next, new print data are printed on the prescribed lines of bankbook based on the print line data, further, bankbook data including the new print line data are magnetically recorded on the magnetic stripes on the cover of bankbook and afterwards, the bankbook is returned to the bankbook slot. When power failure occurs during this processing, the new print data in the middle of printing are completely printed bankbook data including these print line data are magnetically recorded on the stripes on the cover, and the bankbook is returned later.

LEGAL STATUS

[Date of request for examination]

[Date of sending the examiner's decision of rejection]

[Kind of final disposal of application other than the examiner's decision of rejection or application converted registration]

[Date of final disposal for application]

[Patent number]

[Date of registration]

[Number of appeal against examiner's decision of rejection]

Reference No. ECA0990036

Dispatch No. : 137255

Date Mailed: April 20, 2004

Notice of Rejection

Patent Application No. : JP 11-092535
Date of Preparation of This Notice : April 12, 2004
Patent Office Examiner : Yoshiyuki Hika 8323 5D00
Attorney for the Applicant : Hideyuki Kayama
Provision Applied : Article 29, Subsection (2)

The subject application is rejected for the reasons described below.

If the applicant wishes to argue against the rejections, a written argument can be submitted within sixty days from the mailing date of this notice.

Reasons

The invention related to the claim(s) identified below could easily have been made, prior to the filing of the subject application, by a person with ordinary skill in the art to which the invention pertain, on the basis of the invention(s) described in the publication(s) listed below, which had been distributed in Japan or elsewhere prior to the filing of the subject application. Therefore, a patent is not granted to the claimed invention under Article 29, subsection (2) of the Patent Law.
